OFFICIAL MINUTES
OF THE MAYOR AND COUNCIL
OF THE BOROUGH OF LITTLE FERRY
REGULAR MEETING
APRIL 14, 2015

CALL TO ORDER: Mayor Raguseo called the meeting to order at 7:05 p.m.

PLEDGE OF ALLEGIANCE: Councilman Anzalone led the Pledge of Allegiance.

ROLL CALL: Present: Mayor Mauro Raguseo, Council President Roberta Henriquez, Councilman Ronald Anzalone, Councilman Stephen Lanum, Councilman George Muller, Councilman Thomas Sarlo
Absent: Councilwoman Steinhilber

SUNSHINE STATEMENT:

Adequate notice of this meeting was approved by resolution adopted by the Governing Body on January 2, 2015, approved unanimously and transmitted to The Record and Star Ledger as provided by the Open Public Meeting's Act. A copy of meeting notice was filed outside of the Borough Clerk's Office and has been posted on the bulletin board outside of the Borough Clerk's Office.

CORRESPONDENCE: None

PRESENTATION: ARCADIS, U.S., INC. – RE: Former Safer Textiles Processing Facility

Mayor Raguseo explained that representatives for Arcadis, U.S., Inc. are present this evening. He said the Department of Environmental Protection is requesting a cleanup of the site. He said there will be some nuisances during this process, i.e. noise. The Council has no authority over this project. It is being governed by DEP regulations and requirements. Joseph Claypoole, Principal Geologist, explained the environmental cleanup. He explained what the former business was on the site and how solvents from the business contaminated the site. He said that the area has been divided into two areas, area A and area B, what has been done and when. He explained that there are two different soils on the site, sand and clay. He said the clay is challenging to clean up. The most non-invasive way to clean up the clay area is to install sheet pile in the area below ground to contain the contamination. Two small areas require excavation. They will dredge the impacted area of Losen Slote. Trees removed will be replaced. There is a monitoring requirement of up to ten years. They have selected remediation methods that are the least invasive. Mayor Raguseo questioned the temporary

PRESENTATION continued:

fencing which will be placed around the site during the process. Mr. Claypoole said it will be a 6' high chain link fence. He said they could put fabric on the fence so it is not an eyesore. They will be installing a temporary bridge to have access to the Little Ferry side. They will not be transporting on Eckel Road or Borough streets. He said they are doing their best to time the pounding for the sheet pile to be done in the winter months, contingent upon permits. This way residents would most likely be inside with their windows closed. He said the contaminants vaporize and dissipate. There is not an inhalation hazard. Mayor Raguseo spoke in reference to the removal of trees and mentioned concerns that with less trees, there will be less soaking up of water. He was concerned with flooding. Mr. Claypoole said that none of the activities will exacerbate flooding. Borough Engineer Kenneth Job said Superstorm Sandy did not affect plume. As far as the removal of trees and based on the soil there, the soil will absorb the water. He referred to the area as a big sponge. He said the Audubon Society signed off on the removal of the mile a minute plants which choke the natural plantings. Mr. Claypoole said that this will be a two to four year project. The most noise will be caused the trees. Their plantings will restore the area and improve it. They will be removing by the pounding for the sheet piling. That part of the project will go on for approximately three months. They will do a survey of nearby homes before and after the project to see if there were any structural issues and if there were any due to the project, then they will make the repairs. Mr. Claypoole explained that the process of using vegetable oil to remove the contamination cannot be used in the clay portions of the land as the vegetable oil will not be able to distribute or penetrate. Councilman Lanum asked what the lifespan was for the sheet piling. Mr. Claypoole said it is made of steel and has a 90+ year lifespan.

Mayor Raguseo entertained a motion to open this portion of the meeting for anyone wishing to speak about the presentation just given.
Motion by: Councilman Muller
Second by: Council President Henriquez
All ayes.

Eileen DeLeeuw, 11 Chapman Drive, came forward and questioned why some of the equipment has to pass through the area. Mr. Claypoole said that a temporary bridge will be constructed to get to the site. The injection process is done in stages. The bridge will only be there for the beginning stage. He said they would only be passing through with small equipment approximately three times during a four year period for a few days at a time. Ms. DeLeeuw asked about the size of the trees to be replanted. Mr. Claypoole said the tree sizes vary. Some of the species will grow quickly.

PRESENTATION continued:

Steve D., 15 Chapman Drive, came forward and asked if it was safe for him to plant tomatoes on his property. Mr. Claypoole said that is was safe.

George Stauble, 9 Chapman Drive, came forward and inquired how deep the pilings would be in the ground. Mr. Claypoole said they would be 30' into the ground. Mr. Stauble questioned how the monitoring wells worked and asked if they encountered peat moss. Mr. Claypoole did explain the monitoring well process and said they did not encounter peat moss.

Bernie Sobolewski, 153 Eckel Road, came forward and questioned the type of contaminants. Mr. Claypoole said the contaminant is tetrachloroethene. Mr. Sobolewski said he was concerned that this project would hurt the residents, especially those trying to sell their home. Mr. Claypoole said there will be minimal invasion as much as possible. The DEP has ordered the cleanup and the State of New Jersey does not permit contaminants in waters of New Jersey. It must be removed.

Steve D. again came forward and asked where the machinery will be stored. Mr. Claypoole said it will be stored onsite on a day to day basis. Mr. D. inquired about the temporary fencing and why strong security such as being 6' high and having barb wire was necessary. Mayor Raguseo said the fencing will be a benefit as the Borough has issues with ATVs illegally riding near this area. This may keep them out. Mr. Claypoole said a fence less than 6' high and not having barb wire will not be secure enough. Mayor Raguseo said the fence is only temporary and will get rid of any eyesores. It will keep children away for their own safety and will help the newly planted trees. Mr. Claypoole said there will be heavy equipment and not a safe area.

Borough Attorney Joseph Monaghan asked if the use of vegetable oil will only be used where there is only the low end scale of contaminants. Mr. Claypoole said yes.

The presentation ended and a two minute recess was held.

PUBLIC HEARING ON 2015 MUNICIPAL BUDGET

Mayor Raguseo entertained a motion to open Public Hearing on the 2015 Municipal Budget.
Motion by: Council President Henriquez
Second by: Councilman Muller
All ayes.

PUBLIC HEARING ON 2015 MUNICIPAL BUDGET continued:

There being no one wishing to speak, Mayor Raguseo entertained a motion to close Public Hearing on the 2015 Municipal Budget.
Motion by: Councilman Muller
Second by: Council President Henriquez
All ayes.

NEW BUSINESS: None

OLD BUSINESS: None

REPORTS:

Council President Henriquez reported progress.

Councilman Lanum reported that there is a Capital Ordinance on tonight's agenda for the generator at Borough Hall. The existing generator only provides power for 30% of the building. The new generator will be partly paid for by a $75,000 Energy Allocation Initiative grant form State Sandy funds. The Borough has submitted additional information to the DEP for their Flood Risk Reduction grant application. We are cautiously optimistic that we will receive funds to fund the vital and much needed self-cleaning grate at the Losen Slote Pump Station. The DEP has stated it will notify award recipients within the next month or two. Also on tonight's agenda is a resolution accepting the Riser Road Bypass Analysis Report. This report was paid for with a $16,000 Post Sandy Planning grant from the State. The report provides options for extending Riser Road which has been listed to review and study in the Master Plan for decades. The next step is to seek funding for an environmental analysis of the options and there is no time frame for that.

Councilman Anzalone reported that the Fire Department had a total of 17 alarms and gave the breakdown of the alarms. The Department of Public Works is in the process of repairing the stairs at the Senior Center and replacing some of the ceiling tiles inside. They are continuing to fill potholes and doing their spring cleanup at the fields for baseball and soccer opening days. The roof of the DPW garage was found to be in disrepair. There is damage to the truss supports that hold the roof up. The rear truss was temporarily shored up and equipment was removed from the main garage. There is a resolution on tonight's agenda authorizing an emergency repair to the roof.

Councilman Sarlo gave the police report for the month of March. During the month, the Little Ferry Police Department answered 1,757 calls. The department

REPORTS continued:

assisted at 54 first aid calls and 10 fire calls. A total of 47 accidents were reported and 33 reports were taken on the street. The department issued a total of 603 summonses. A total of 236 parking summonses, 362 moving summonses, 0 radar summons and 5 false alarm summons were issued. The department responded to a total of 3 domestic violence calls. A total of (11) 9-1-1 calls were answered by the department and 8 adults and 1 juvenile was arrested.

Councilman Muller reported that he attended the Joint Insurance Fund Safety Awards Breakfast on March 27th. He said the Borough received 100 points, a plaque and a check in the amount of $2,000 to be used towards safety purposes. He reminded each member of the Governing Body to take the Public Official's Course which is available on-line. The Borough will receive a $250.00 credit on its insurance premium for each member who takes the course. All vouchers have been signed and deemed payable.

Mayor Raguseo said PSE & G will soon being repaving the streets they dug up throughout town. Priority roads right now are along the upcoming 5K route. He happily reported Eckel Road will finally be paved as well.

Borough Attorney Joseph Monaghan reported progress on behalf of Councilwoman Steinhilber.

CITIZENS HEARING:

Mayor Raguseo entertained a Motion to Open Citizens Hearing:
Motion by: Councilman Muller
Second by: Council President Henriquez
All Ayes.

Ross LaSpina, 57 Niehaus Ave., came forward and spoke in reference to the problem of tractor trailer trucks traveling on Niehaus Ave. and tearing down power lines. He said there were two incidents last year. He said GPS's are leading the trucks to Niehaus and the newly installed sign which warns of low power lines is being disregarded. He claimed that PSE & G's lines are high enough, but the cable lines are not. He recommended that a LED blinking light be placed on Jackson warning trucks not to go down Niehaus. Mayor Raguseo said that State law prevents us from not allowing trucks doing business in the area. He said another town is having the same issue and the blinking light sign is not helping. Councilman Sarlo said the solution is to have the cable line raised. Mr. Capabianco said the Borough cannot regulate where the cable lines have to be. Councilman Lanum said the low point of the cable line is where it meets the

CITIZENS HEARING continued:

house. The individual homeowner(s) would need to have it raised. Mr. LaSpina said it is basically one or two homes with the low lines that have been pulled and knocking out the power. Mayor Raguseo recommended visiting these homes to see what can be done. He requested that the Borough Attorney send a letter to the cable company advising of this problem and see if they can be of assistance.

Bernie Sobolewski, 153 Eckel Road, came forward and inquired if the Borough was receiving complaints about heavy truck traffic hitting curbs, etc. Mayor Raguseo said most complaints are about hitting the low hanging wires.

George Stauble, 9 Chapman Drive, came forward and inquired if the left side of the ditch behind the DPW by the entrance to the Losen Slote will be cleaned. Mr. Capabianco said the cleaning was done in-house last year. Mr. Stauble asked if handicapped ramps will be put in on Eckel Road. Mayor Raguseo said it is required.

Since there was no one else wishing to speak, Mayor Raguseo entertained a Motion to Close Citizens Hearing:
Motion by: Councilman Muller
Second by: Councilman Lanum
All Ayes.

ORDINANCE(S) FOR FINAL PASSAGE:

ORDINANCE NO. 1430-38-15 – AN ORDINANCE REPEALING ORDINANCE 1423-31-14 ENTITLED "PARKING TIME LIMITED ON CERTAIN STREETS" OF THE REVISED GENERAL ORDINANCES OF THE BOROUGH OF LITTLE FERRY, COUNTY OF BERGEN AND STATE OF NEW JERSEY.
