Attention; Ms. Amanda Gowans, CFM

Re: 30 CRS letter, responses.
Little Ferry, NJ

Dear Ms. Gowans,

Enclosed please find the additional documents or information requested in your April 22, 2015 30 day CRS letter update;

Activity 310 - The letter stating the community will collect, review and maintain elevation certificates is attached.

Activity 330 - Outreach projects.

I offer the following clarifications to our previous submissions;

Originally outreach to the reploss area was sent to the individual reploss properties. Our outreach to the flood zone was sent to the entire flood zone in both the HMDC district and the Borough only district and transitioning between the address lists for submission did create some confusion. Please accept the following as the definitive outreach list.

Little Ferry provides outreach in a variety of ways, first there are handouts available at the tax office counter, the building department counter and bulletin boards throughout the Borough Offices. Insurance information is provided during ALL counter visits.

The following literature is available on a rotating schedule at the counters until existing stock runs out or a newer Little Ferry Flood news addition is published.

1. Install Sewer Backflow Valves .
2. Anchor Fuel Tanks
3. Raise Electrical System Components
4. Build With Flood Damage Resistant Materials
5. Floodsmart.gov / Know your risk.
6. NFIP Program Regulations.
7. Myths and facts about the NFIP

Richard Bolan / Construction Official

8. Elevating Homes to Protect from Future Storms HMGP (NJ Strong) (Also town wide tax mailing insert 2014).
9. Tri-fold flyer, Preparation, Insurance Information, Flood Protection (Also town wide mailing April 2014).
10. Little Ferry Flood News Spring 2014 addition (previously submitted example). (Also town wide mailing June 2014).
11. Little Ferry Flood News Fall 2014 addition (previously submitted example) (Also town wide tax mailing insert October 2014).
12. Increased cost of compliance coverage FEMA F-300 (Also town wide tax mailing insert 2nd quarter 2014).

I have not included any of the 2015 outreach projects in this application.

Activity 360 - Flood Protection Assistance.

1. Please see outreach publications, website and log.

We use the same log sheet for the Flood Protection Assistance visits. There is currently no record since this service has yet to be requested or provided.

Activity 501 - Repetitive Loss.

The only Repetitive Loss list is from December 10, 2014, and the only CC-RL form date I show we submitted. The other CC-RL reflecting a January 13, 2015 date should be discarded. There are 249 addresses on the list.

Originally mailing lists for SFHA/Reploss area were submitted reflecting individual properties, we are now using the entire Flood Plain as our Reploss area. Additional corrections were made to remove the areas inside the HMDC district from our mailing lists.

The 30 day letter mailing list we provided was a listing of all properties in Little Ferry throughout the combined flood zone including the HMDC district. This computer generated list was done by lot and block and lists as individual addresses lots which comprise larger parcels or lots with multiple addresses which accounts for the greater number of line items than properties. A good example is White Castle that is a single site have 2 addresses listed and apartments having a single address but multiple unit numbers.

Although other outreach for our reploss area had been done targeting individual reploss addresses, the attached list is the most recent and with minor corrections, such as the removal of duplicate addresses for the same location, reflect our reploss area and our 100 year flood zone.

No worksheets have been updated at the time of our original submission. A number of homes and equipment has mitigated after the application date will be included in the yearly cycle documentation.

Activity 510 - Floodplain Management Planning.

1. Little Ferry has adopted the Bergen County all Hazards Plan.

Activity 610 - Flood Warning.

1. Formal Flood Warning and Response plan adopted march 10, 2015 (8 pages, attached).
2. Checklist items attached.

Activity 630 - Dams.

1. Copies of inundation map attached.

Signed,

RE: Development in the Regulatory Floodplain – EC Review

Dear Ms. Gowans:

For the purposes of applying to the Community Rating System, we certify that when new or substantially improved/damaged structures are permitted, we will require Elevation Certificates as part of our permitting process and will review them for accuracy and completion from this point forward. We will also make the elevation certificates available upon request.

Sincerely,

A handwritten signature in black ink, appearing to read "Rich Bolan", is written over a horizontal line.

RESOLUTION #: 156

MOTION BY: C/P Henriquez

SECOND BY: C/M Lanum

RE: Adoption of Bergen County Multi-Jurisdictional Hazard Mitigation Plan

WHEREAS, the Borough of Little Ferry, NJ, has experienced natural hazards that result in public safety hazards and damage to private and public property; and

WHEREAS, the hazard mitigation planning process set forth by the State of New Jersey and the Federal Emergency Management Agency offers the opportunity to consider natural hazards and risks, and to identify mitigation actions to reduce future risk; and

WHEREAS, the New Jersey Office of Emergency Management is providing federal mitigation funds to support development of the mitigation plan; and

WHEREAS a *Hazard Mitigation Plan* has been developed by the Mitigation Planning Committee; and

WHEREAS the *Hazard Mitigation Plan* includes a prioritized list of mitigation actions including activities that, over time, will help minimize and reduce safety threats and damage to private and public property, and

WHEREAS, the draft plan was provided to each participating jurisdiction and was posted on the County Office of Emergency Management's website so as to introduce the planning concept and to solicit questions and comments; and to present the Plan and request comments, as required by law, and

NOW THEREFORE BE IT RESOLVED by the Mayor and Council of the Borough of Little Ferry:

1. The Bergen County Multi-Jurisdictional *Hazard Mitigation Plan*, as submitted to the New Jersey Office of Emergency Management and the Federal Emergency Management Agency on April 13, 2015 by the Bergen County Office of Emergency Management is

hereby adopted as an official plan of the Borough of Little Ferry; minor revisions recommended by the Federal Emergency Management Agency and/or the New Jersey Office of Emergency Management may be incorporated without further action.

2. The Borough of Little Ferry departments identified in the Plan are hereby directed to pursue implementation of the recommended high priority activities that are assigned to their departments.
3. Any action proposed by the Plan shall be subject to and contingent upon budget approval, if required, which shall be at the discretion of the Borough of Little Ferry, and this resolution shall not be interpreted so as to mandate any such appropriations.
4. The Emergency Management Coordinator is designated to coordinate with other offices and shall periodically report on the activities, accomplishments, and progress, and shall prepare an annual progress report to be submitted to the Bergen County Office of Emergency Management. The status reports shall be submitted on a yearly basis by a predetermined date as agreed upon by all stakeholders.

PASSED by the Mayor and Council of the Borough of Little Ferry, this 14th day of April, 2015.

ATTEST:

Barbara Maldonado, Borough Clerk

Mauro Raguseo, Mayor

I hereby certify the foregoing to be a true copy of a resolution adopted by the Mayor and Council at a meeting held on April 14, 2015.

Barbara Maldonado, Borough Clerk

is likely to be damaged. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Water Storage System is located in an area considered as low earthquake risk or has been constructed /retrofitted to comply with the current earthquake building codes. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The East Gate Sewer Station* is slightly vulnerable to winter storms, which may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Emergency Landing Facility* is located in a floodplain or flood prone area but has no prior history of flood damage.

Leonia Borough

The Borough of Leonia has identified eight critical facilities.

The following critical facilities are not vulnerable to any natural hazards:

1. Borough Hall
2. Leonia Recreation/Shelter
3. Leonia Senior Housing
4. Public Safety Complex

The Anna C. Scott School, the Leonia Middle School, and the St. John's School are each vulnerable to winter storms, which may pose a health/safety risk to up to 25% of the population in the vicinity of these facilities. Economic losses due to such a storm would be moderate.

Leonia High School is located in a flood plain or flood prone area, but has no prior history of flood damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

Little Ferry Borough

The Borough of Little Ferry has identified 18 critical facilities, one of which is new for this Plan update. One critical facility, Yankee Propane, has closed.

The Bergen County Utilities Authority has been updated to reflect an increase in vulnerability to flooding. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. The facility is also on a sloping or waterside site with moderate vulnerability to landslide or erosion, and/or is near but not in an avalanche runout zone.

The Early Learners Child Center has been updated to reflect a decrease in vulnerability to earthquakes, and an increase in vulnerability to storm surge. This facility meets the current code, and is not close to heavily vegetated areas, but access and/or separation from nearby structures increases fire risk. The

structure is in a floodplain or flood prone area but has no prior history of flood damage. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Eckel Road Pump Station has been updated to reflect an increase in vulnerability to storm surge. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry DPW has been updated to reflect an increase in vulnerability to storm surge. This facility is vulnerable to high wind due to wall opening size/lack of protection, roof configuration and/or several nearby trees, and essential external equipment is vulnerable. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry Hose Co. Fire Department has been updated to reflect a decrease in vulnerability to fire, and an increase in vulnerability to flooding and storm surge. This facility is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry Library is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The library is located in an area considered as low earthquake risk or has been constructed /retrofitted to comply with the current earthquake building codes. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry Municipal Building has been updated to reflect a decrease in vulnerability to flooding. This facility is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. . This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry Nursery School has been updated to reflect an increase in vulnerability to storm surge and a decrease in vulnerability to winter storm. This facility is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. The facility meets the current code, and is not close to heavily vegetated areas, but access and/or separation from nearby structures increases fire risk. The structure is in a floodplain or flood prone area but has no prior history of flood damage. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry Public Safety Building has been updated to reflect an increase in vulnerability to flooding and storm surge. This building is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. This facility is located in a floodplain or flood prone area and has experienced significant flood damage, or the property is a NFIP repetitive loss property. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Losen Slote Drain Station has been updated to reflect an increase in vulnerability to fire, storm surge and winter storm, and a decrease in vulnerability to flooding. This facility does not meet current fire code, is in/ adjacent to large vegetated areas, and has inadequate access and/or separation from other structures. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone.

The Maiden Lane Drain Station, the Union Avenue Pump Station, the Williams Street Drainage Station and the Main & Franklin Pump Station are each located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of each of these facilities. Economic losses due to such a storm would be moderate.

The Main Street Pump Station is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. The pump station is on a sloping/waterside site with moderate vulnerability to landslide or erosion, and/or is near but not in an avalanche runout zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of each of these facilities. Economic losses due to such a storm would be moderate.

The Memorial School and Washington School have both been updated to reflect an increase in vulnerability to flooding and storm surge, and a decrease in vulnerability to winter storm. These facilities are each slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. These facilities meet the current code, and are not close to heavily vegetated areas, but access and/or

separation from nearby structures increases fire risk. Each structure is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facilities are located in a storm surge zone for a Category 3 hurricane or are located just inside a designated tsunami risk zone, but have no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of these facilities. Economic losses due to such a storm would be moderate.

Public Service Electric has been updated to reflect an increase in vulnerability to flooding. It is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

Scientific Design is vulnerable to high wind due to wall opening size/lack of protection, roof configuration and/or several nearby trees, and essential external equipment is vulnerable. The facility meets the current code, and is not close to heavily vegetated areas, but access and/or separation from nearby structures increases fire risk. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Willow Lake Pump Station has been updated to reflect an increase in vulnerability to flooding and storm surge. It is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facilities are located in a storm surge zone for a Category 3 hurricane or are located just inside a designated tsunami risk zone, but have no prior damage. The pump station is on a sloping/waterside site with moderate vulnerability to landslide or erosion, and/or is near but not in an avalanche runout zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Depyster Creek Pump Station has been updated to reflect an increase in vulnerability to fire and flooding. This facility is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. It meets the current code, and is not close to heavily vegetated areas, but access and/or separation from nearby structures increases fire risk. This pump station is located in a flood plain or flood prone area and has experienced limited flood damage in the past. This facility is located in an area considered as low earthquake risk or has been constructed /retrofitted to comply with the current earthquake building codes. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. The pump station is on a sloping/waterside site with moderate vulnerability to landslide or erosion, and/or is near but not in an avalanche runout zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Little Ferry Hook & Ladder Fire Department has been updated to reflect an increase in vulnerability to flooding and winter storm. It meets the current code, and is not close to heavily vegetated areas, but access and/or separation from nearby structures increases fire risk. It is located in a floodplain or flood prone area and has experienced significant flood damage, or the property is a NFIP repetitive loss

property. This facility is located in an area considered as low earthquake risk or has been constructed /retrofitted to comply with the current earthquake building codes. The facility is located in a storm surge area for a category 4 or 5 hurricane, or is located at the edge of a designated tsunami risk zone. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

St. Margaret's of Cortona* is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. This facility is located in a flood plain or flood prone area and has experienced limited flood damage in the past. The facility is located in a storm surge zone for a Category 3 hurricane or is located just inside a designated tsunami risk zone, but has no prior damage. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

Lodi Borough

The Borough of Lodi has identified six critical facilities. Additionally, Bergen County has identified one critical facility (new to this Plan update) located in the Borough of Lodi. This will be discussed first, followed by the critical facilities identified by the Borough of Lodi.

Bergen County Community Transportation/Lodi Armory* is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. This facility is located in an area considered as low earthquake risk or has been constructed/retrofitted to comply with the current earthquake building codes. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The DPW Yard is vulnerable to high wind due to wall opening size/lack of protection, roof configuration and/or several nearby trees, and essential external equipment is vulnerable. The facility meets the current code, and is not close to heavily vegetated areas, but access and/or separation from nearby structures increases fire risk. The facility is located in a floodplain or flood prone area and has experienced significant flood damage, or the property is a NFIP repetitive loss property. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Lodi Borough Hall is located in a flood plain or flood prone area and has experienced limited flood damage in the past. Winter storms may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Lodi FD Engine 614 is vulnerable to winter storms, which may pose a health/safety risk to up to 25% of the population in the vicinity of this facility. Economic losses due to such a storm would be moderate.

The Lodi Fire Headquarters is slightly vulnerable to high winds due to wall opening size or lack of protection. In addition, high winds may cause window/door failure, and essential external equipment is likely to be damaged. The facility is located in a floodplain or flood prone area and has experienced significant flood damage, or the property is a NFIP repetitive loss property. Winter storms may pose a

Proposed Hazard Mitigation Initiatives													
Community Name	Mitigation No.	Mitigation Action	Hazards Addressed	Existing, Future or N/A	Action Type	Goals Met	Benefits	Costs	Other Community Objectives	Priority	Timeline	Lead Agency	Funding Source
Borough of Little Ferry	230-001-14	Improved storm water management along a public ditch in a residential neighborhood to reduce repetitive loss	All hazards	Existing	Structure and Infrastructure	3, 5	Low	Med	Unmet need, protect safety and welfare, reduce repetitive loss	High	1 year	Borough of Little Ferry; Bergen County	HMGP, PDM
Borough of Little Ferry	230-002-14	Adoption of more resilient building codes	All hazards	Future	Local Plans and Regulations	2, 3, 4, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-003-14	Adoption of density controls within the land use ordinance/plans	Density controls	Existing and future	Local Plans and Regulations	2, 3, 4, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-004-14	Adoption of design review standards to ensure sustainability, neighborhood characteristics and resiliency	Design review standards	Existing and future	Local Plans and Regulations	2, 3, 4, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-005-14	Adoption of environmental review standards to ensure sustainability, neighborhood characteristics and resiliency	Flooding	Existing and future	Local Plans and Regulations	2, 3, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	HMGP, PDM, FMA, other government funding sources
Borough of Little Ferry	230-006-14	Adoption of Floodplain development regulations to ensure sustainability, neighborhood characteristics and resiliency	Flooding	Existing and future	Local Plans and Regulations	2, 3, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-007-14	Review/adoption of Subdivision and development regulations to ensure sustainability, neighborhood characteristics and resiliency	All hazards	Existing and future	Local Plans and Regulations	2, 3, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-008-14	Review/adoption of Coastal zone management regulations to ensure sustainability, neighborhood characteristics and resiliency	Flooding	Existing and future	Local Plans and Regulations	2, 3, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-009-14	Open Space Preservation - develop Open Space Plan	Flooding	Existing and future	Local Plans and Regulations	2, 3, 5	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources
Borough of Little Ferry	230-010-14	Establishment of performance standards	All hazards	Future	Local Plans and Regulations	2, 3, 5	Low	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	1 year	Council and Planning Board; NJMC	Capital funds, other government funding sources

Proposed Hazard Mitigation Initiatives											
Community Name	Mitigation Action No.	Mitigation Action	Hazards Addressed	Existing, Future or N/A	Action Type	Goals Met	Benefits	Costs	Other Community Objectives	Priority	Funding Source
Borough of Little Ferry	230-011-14	Emergency generator at Critical Facility - Memorial School which serves as shelter	All hazards	Address existing structure	Energy Allocation	2, 3	High	Low	Emergency shelter, critical infrastructure, unmet need, protect safety and welfare	High	HMGP, PDM
Borough of Little Ferry	230-012-14	Establishment of performance standards/Shoreline setback regulations - as part of land use management	Flooding	Existing and Future	Local Plans and Regulations	2, 3, 5	Low	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	Capital funds, other government funding sources
Borough of Little Ferry	230-013-14	Transfer of Development Rights - as part of land use management	Transfer of Development Rights	Future	Local Plans and Regulations	2, 3, 4, 5	Low	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	Council and Planning Board; NJMC
Borough of Little Ferry	230-014-14	Hazard Information Centers	All hazards	Existing and future	Education and Awareness Programs	1	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	HMGP, PDM, FMA, other government funding sources
Borough of Little Ferry	230-015-14	Public education and outreach programs - establishment of and enhancing existing	All hazards	Existing and future	Education and Awareness Programs	1	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	HMGP, PDM, FMA, other government funding sources
Borough of Little Ferry	230-016-14	Real estate disclosure - establishment of and enhancing existing	All hazards	Future	Education and Awareness Programs	1, 2	Low	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	HMGP, PDM, FMA, other government funding sources
Borough of Little Ferry	230-017-14	Sediment and erosion control regulations- establishment of and enhancing existing	Flooding	Future	Local Plans and Regulations	3, 5	Low	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	HMGP, PDM, FMA, other government funding sources
Borough of Little Ferry	230-018-14	Stream Corridor Restoration	Flooding	Future	Natural Systems Protection	1, 3, 5	High	Med	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	over multiple years
Borough of Little Ferry	230-019-14	Elevation of structures	Flooding	Future	Structure and Infrastructure	1, 3	High	Low	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	over multiple years
Borough of Little Ferry	230-020-14	Levees and floodwalls (including berms) - building and enhancing existing	Flooding	Future	Structure and Infrastructure	1, 2, 3, 4, 5	high	high	Reduce repetitive loss, hazard mitigation, economic development, protect health and welfare of the public	High	over multiple years
Borough of Little Ferry	230-021-14	Acquisition of an emergency generator to power Police Department/OEM and Borough Hall facility.	All hazards	Address existing structure	Energy Allocation	2	High	Low	Emergency shelter, critical infrastructure, unmet need, protect safety and welfare, emergency operations	High	HMGP, PDM
Borough of Little Ferry	230-022-14	Emergency generator at Main St Storm Water Pump Station	All hazards	Address existing structure	Energy Allocation	2	High	Low	Critical infrastructure, unmet need, protect safety and welfare	High	HMGP, PDM

Proposed Hazard Mitigation Initiatives											
Community Name	Mitigation Action No.	Mitigation Action	Hazards Addressed	Existing structure or N/A	Action Type	Goals Met	Benefits	Costs	Other Community Objectives	Priority	Timeline
Borough of Little Ferry	230-023-14	Emergency generator at Willow Lake Storm Water Pump Station	All hazards	Address existing structure	Energy Allocation	2	High	Low	Critical infrastructure, unmet need, protect safety and welfare	High	1 year
		Self cleaning grate at Losen Slote Storm Water Pump Station. This regional Pump Station serves 5 municipalities but is owned and operated by Little Ferry. Self-cleaning grate will ensure continued operations during events, especially since there is only one means of ingress.									
Borough of Little Ferry	230-024-14		All hazards	Address existing structure	Structure and Infrastructure	1, 2, 3	High	Low	Critical infrastructure, unmet need, protect safety and welfare	High	1 year
Borough of Little Ferry	230-025-14	Willow Lake would be expanded to hold more water during events	All hazards	Address existing structure	Structure and Infrastructure	1, 3	Med	High	Unmet need, protect safety and welfare, reduce repetitive loss	High	1 year
		Increased capacity to reduce RL damages along homes and businesses that are located near slotes, ditches and creeks.									
Borough of Little Ferry	230-026-14		All hazards	Address existing structure	Structure and Infrastructure	1, 3, 4	High	Med	Unmet need, protect safety and welfare, reduce repetitive loss	High	1 year
		Increased capacity to reduce RL damages to homes and businesses located in and near the "Main St Corridor." Jointly address the County's responsibility of storm water mgt while the Borough would provide ADA Compliance and ensure the existing Borough-owned infrastructure can handle additional water.									
Borough of Little Ferry	230-027-14		All hazards	Address existing structure	Structure and Infrastructure	1, 3, 4	High	Med	Unmet need, protect safety and welfare, reduce repetitive loss, economic development	High	1 year
Borough of Little Ferry	230-028-14	Installation of a storm water pump station and check valve within the Industrial Ave/Gates Road area	All hazards	Address existing structure (public roadways)	Structure and Infrastructure	1, 3	High	Med	Unmet need, protect safety and welfare, reduce repetitive loss, economic development	High	1 year

Proposed Hazard Mitigation Initiatives												
Community Name	Mitigation Action No.	Mitigation Action	Hazard Addressed	Existing, future, or N/A	Action Type	Goals Met	Benefits	Costs	Other Community Objectives	Priority	Priority	Funding Source
Township of Lyndhurst	232-001-14	Permanent generator installed at Senior Citizen Building and Senior Center which is used as a shelter / warming or cooling center at times.	Power Loss	Future	Energy Allocation	2	High	High	Support public's needs and irritability which may cause unrest.	High		HMGP, RFC, and FMA. For 25% local match, in-kind
Township of Lyndhurst	232-002-14	Elevation of 22 repetitive flood loss residences in flood prone area.	Flood	Future	Structure and Infrastructure	1, 3	High	High	Support public's needs and irritability which may cause unrest.	High		HMGP, RFC, and FMA. For Bergen County
Township of Lyndhurst	232-003-14	Folding stop signs to be mounted on traffic light poles which can be rapidly activated.	Secondary Traffic Control Measures	Future	Structure and Infrastructure	1	High	Low	None	High		Future mitigation action.
Township of Lyndhurst	232-004-14	Construction of permanent flood walls or levees including the possibility of deployment of hydraulic portable walls along the Passaic River in the flood prone areas within the township	Floodwalls / Levees	Future	Structure and Infrastructure	1, 2, 3, 4, 5	High	High	Support the public's need to be secure in their homes and businesses.	High		HMGP, PDM, FMA, RFC, SRL
